Notes:

1. Flux is measured with an accuracy of $\pm 10\%$.
2. True Green and Blue emitters are built with InGaN.
3. All Red emitters are built with AlGaInP.

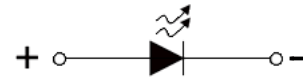

Mechanical Dimensions

Emitter Type Dimension

Star Dimensions

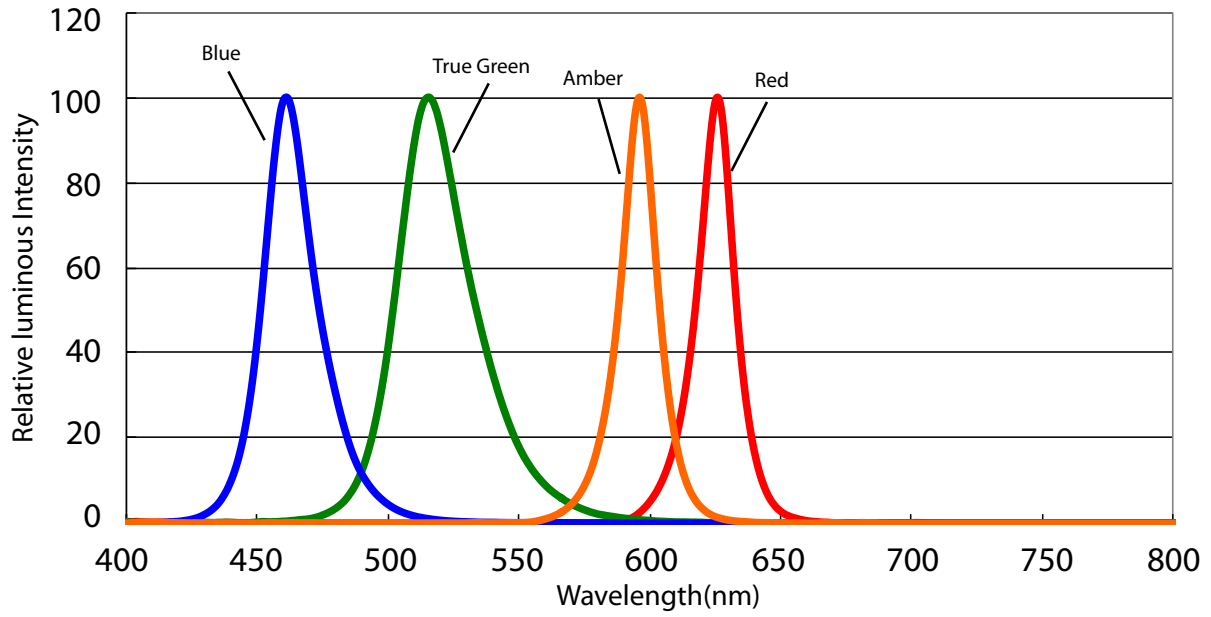

Emitter color	Slug at the bottom of the electrode	Circuit
R/A	Anode	
T/B	No electrode	

Notes:

1. All dimensions are in mm.
2. Lambertian and side emitting series slug has polarity as anode.
3. It is important that the slug can't contact aluminum surface, It is strongly recommended that there should coat a uniform electrically isolated heat dissipation film on the aluminum surface.
