

Halogen reflector

13629 150W GX5.3 21V 1CT

Philips' halogen reflector lamps offer the ideal no-fuss solution for a wide variety of medical, projection and scientific illumination systems. Their proven reliability makes them ideal for retrofit installations. The burners are precisely aligned for optimal light performance. Dichroic reflectors ensure heat dissipation towards the back of the optical system, which helps the optical system remain within temperature limits. A special blue-filter version blocking out unwanted light above 700 nm is available for dental curing applications. In addition, you get all the proven advantages of halogen technology such as a CRI of 100 - the same as natural sunlight for the best possible color rendering. Halogen lamps also create a comfortable warm white light, and they maintain their high lumen output with almost no lumen reduction throughout their lifetime.

Product data

• General Characteristics

13629 EKE - GX5.3 Quartz-UV Open Smooth s90 Projection
Projection 200 hr

• Light Technical Characteristics

Color Rendering Index	100 Ra8
Color Temperature Technical	3250 K
Luminous Flux Lamp	900 Lm

• Electrical Characteristics

Lamp Wattage	150 W
Voltage	21 V
Dimmable	Yes

• Luminaire Design Requirements

Pinch Temperature 400 (max) C **Bulb Temperature** Working Distance WD

900 (max) C 45 mm

• Product Dimensions

Overall Length C Diameter D Filament Dimensions (WxH) [mm]

44.45 (max) mm 50.67 (max) mm
