# PROTECTOR

Now you can get through the daily grind with one less thing to worry about: dropping your smart phone. Our engineers conceived two levels of protection: a tough chamfer design on the outside and a soft elastomeric lining on the inside. The result: Upon impact the Pelican ProGear™ Protector case deflects energy and cushions your phone, preventing damage to the fragile glass surface and sensitive electronics.

- Tested to Military Specifications to survive multiple drops.
- Impact absorbing TPR rubber lining protects electronics.
- Angled edges divert energy and protects screen from surface contact.
- Guaranteed for life
